SUBJECT: BLUE LANTERN LEVEL 3: PRE-LICENSE END-USE CHECK
ON APPLICATION 050177010

REF: 2006 BLUE LANTERN GUIDEBOOK

¶1. This is an Action Request. See paragraphs 2-4.

¶2. The Department's Office of Defense Trade Controls Compliance (PM/DTCC) requests the assistance of Embassy Conakry, Embassy Panama and Embassy Riga in conducting a pre-license check on application 050177010 for the export of Sea FLIR II Thermal Imaging Systems to Equatorial Guinea. Posts are requested to complete this Blue Lantern check within 30 days. Lack of response to a Blue Lantern check will affect pending and future licenses involving parties to this license.

¶3. Reason for request: sensitive commodity, unusual routing, and unfamiliar foreign consignees, Hansa Electronics SIA (Hansa) and Intracoastal Trading Services S.A. (ITS). The companies have not appeared on previous licenses nor have the bona fides of the companies been verified by a Blue Lantern check.

¶4. ACTION MALABO: Post is requested to make inquiries with appropriate government officials to determine if the Gabinete Militar de S.E., Republica de Guinea ordered the Sea FLIR II Thermal Imaging Systems from ITS and if so, verify the amount, and that the items will only be used for the purpose stated on the license.

¶5. ACTION PANAMA: Embassy is requested to make inquiries with appropriate officials to establish the bona fides of unfamiliar foreign consignee ITS and confirm that the thermal imaging systems will be used for the purpose stated on the license. PM/DTCC also requests that post conducts a site visit to ITS in order to provide Department with an assessment of its business operations and on-site security. Finally, post is asked to assess whether the company appears to be a reliable recipient of USML items. If a site visit is not possible, please inform the PM/DTCC officer. The following questions are provided as suggested guidance:

--What role will ITS play in the proposed transaction?

--Does ITS have secure facilities and proper accounting and security procedures for handling sensitive USML items?

--Will ITS retain positive control over the thermal imaging systems at all times?

--When was the company established and who are its

principals?

--What is the nature of its business -- Have you previously purchased USML items?

--What type of organizations are among its typical customers and where are the customers located?

--Does the company understand the restrictions on USML items, especially the prohibition against unauthorized re-transfer and re-export?

¶6. ACTION RIGA: Embassy is requested to make inquiries with appropriate officials to establish the bona fides of unfamiliar foreign consignee Hansa and confirm that the thermal imaging systems will be used for the purpose stated on the license. PM/DTCC also requests that post conducts a site visit to Hansa in order to provide Department with an assessment of its business operations and on-site security. Finally, post is asked to assess whether the company appears to be a reliable recipient of USML items. If a site visit is not possible, please inform the PM/DTCC officer.

The following questions are provided as suggested guidance:

--Does the company have supporting documentation for this proposed transaction?

--What role will Hansa play in the proposed transaction?

--Does the company have secure facilities and proper accounting and security procedures for handling sensitive USML items?

--When was the company established and who are its principals?

--What is the nature of its business?

--What type of organizations are among its typical customers and where are the customers located?

--Does the company understand the restrictions on United States Munitions List (USML) items, especially the prohibition against unauthorized re-transfer and re-export?

END ACTION

¶7. Details of license application:

DTC Case: 050177010

QUANTITY/COMMODITY:

4 FLIR Model Sea FLIR II C (320x240 InSb FPA, 3-5 micron) thermal imaging systems
including parts and accessories to support the system

License Value: USD 1,284,116.00

SELLER:

FLIR Systems, Inc.
27700 SW Parkway Avenue
Wilsonville, OR 97070
